So much strange *incomprehensibleness* followes upon God's incarnation, as our nature is dignified above what it hath a faculty to conceive, for the soul of man shall not rightly apprehend the honour of this union with our flesh, till she be never'd her selfe from this connexion.

There are some other combinations or systems of years, that are of use in chronology, as that called the *indiction*, which is a period of 15 years, at the end of which a certain tribute was paid by the provinces of the Roman Empire, and by which the emperors ordered publick acts to be dated.
Priestley. On History, Lect. 14.

The name and use of the *Indictions*, which serve to ascertain the chronology of the middle ages, was derived from the regular practice of the Roman Tributes. The emperor subscribed with his own hand, and in purple ink the solemn edict or *indiction*, which was fixed up in the principal city of each diocese, during two months previous to the first day of September. And by a very easy connection of ideas, the word *indiction* was transferred to the measure of tribute which it prescribed, and to the annual term which it allowed for payment.—*Gibbon. Roman Empire*, c. 17.

All men deem thus, that to have need goeth before *indigence*, supposing him that standeth in need of things which are not ready at hand, nor easy to be gotten, is *indigent*. To make this more plain, no man is said to be *indigent* of horns or of wings, for that he hath no need of them: but we say truly and properly that some have need of armour, of money, and of apparell, when in the penury and want of these things they neither have them, nor can come by them, to supply their necessity.—*Holland. The apostle of the Gentiles charges us, to pray continually. Not that we should in the midst of a sensible *indisposedness* of heart fall suddainly into a fashionable devotion; but that by holy ejaculations, and previous meditation, we should make way for a feeling invocation of our God, whose ears are never but open to our faithfull prayers.

Bp. Hall. The Extremes of Devotion.

All which I will bid you remember, is, that the Pythagorean doctrine doth not only carry one soul from man to man, nor man to beast, but indifferently to plants also: and therefore you must not grudge to find the same soul in an Emperor, in a post horse, and in a Macaron: since no unreadiness in the soul, but an *indisposition* in the organs, works this.—*Donne. Progress of the Soul*, Epis.

Being now at Sir William Bowyer's in the country, I cannot write at large, because I find myself somewhat *indisposed* with a cold, and am thick of hearing, worse than I was in town.—*Dryden. Sept* 3, 1697. Let. 21.

But the conversation I had with this pious author during my stay at Geneva, and the present he was pleased to make me of this treatise before it was printed, in a place where I had opportunities to enquire both after the writer, and some passages of the book, did at length overcome in me (as to this narrative) all my settled *indisposedness* to believe strange things.—*Boyle. Works*, vol. i. p. 222.

In this view of things, the proposing of these mysteries under the impenetrable cover of parables was the greatest of all mercies to them, since a further degree of light would not only have *indisposed* them to the reception of it, but must have aggravated their guilt beyond measure, and have left them totally without excuse.

Hurd. Works, vol. vii. Ser. 38.

The circumstance which, from time to time, occasioned a defection from the law, was neither an *indisposition* to its establishment; nor any incoherence in its general frame and constitution; nor aversion to any particular part, nor yet a debility or weakness in its sanctions.

The picture concerning the death of Cleopatra with two asps or venemous serpents unto her arms, or breasts, or both, requires consideration: for therein (beside that this variety is not excusable) the thing it selfe is questionable; nor is it *indisputably* certain what manner of death she died.—*Brown. Vulgar Errours*, b. v. c. 12.

Of these perfections some were accidental or adventitious to the human nature by the benignity of Almighty God, and concredited thereunto upon condition of his obedience to the command of God; and upon the breach of that condition were either utterly lost, as the *indissolubility* of the union of the composition.—*Hale. Origin. of Mankind*, p. 313

Those things which are made by me are *indissoluble* by my will, and though every thing which is compacted, be in its own nature *dissolvable*, yet it is not the part of one that is good, to will the *dissolution* or destruction of any thing, that was once well made. But as to the contract itself, this not receiving its essential quality of *indissolubility* till made on the terms which civil laws prescribe, it was null and void from the beginning.
Warburton, vol. ix. Ser. 17.

What then, it may be asked, are the distinct parts which God and the magistrate claim as their peculiar, in this solemn contract? It is from God that two are made one by an *indissoluble* tie: and this is the law of religion.—*Id. Ib.*

There is an abstruse astrologer that saith, If it were not for two things that are constant, (the one is, that the fixed starres ever stand at like distance one from another, and never come neerer together, nor goe further asunder: the other, that the diurnal motion perpetually keepeth time,) no *individuall* would last one moment.

Clarke. Answer to the Sixth Letter

Though the want of *individuality* or distinctness is, indeed, the sole reason urged in the present argument, why a system of matter cannot have a power of thinking or an *individual* consciousness; yet it ought not therefore to be said, that it is only required that a thing be an *individual* being, in order to its being a proper subject of a power of thinking.—*Id. Defence of the Immateriality, &c. of the Soul.*

Other beings there may be innumerable, besides the one Infinite Self Existent; but no other being can be self-existent, because so it would be *individually* the same, at the same time that it is supposed to be different.
Id. On the Attributes, Prop. 7.

To which reserved portion, at the last day, the soul, as the prime *individuating* principle, and the said reserved portion of matter, as an essential and radical part of the *individuation*, together with a sufficient supply of more matter (if requisite) from the general mass, shall, by the Almighty Power of God joining all those together, make up and restore the same *individual* person.

Hale. Origin. of Mankind p. 175.

When I speak of *indivisibility*, that imagination create not new troubles to herself, I mean not such an *indivisibility* as is fancied in a mathematical point; but as we conceive in a sphere of light made from one lucid point or radiant center. For that sphere or orbe of light, though it be in some sense extended, yet it is truly *indivisible*, supposing the center such. For there is no means imaginable to dissever or seperate any one ray of this orbe, and keep it apart by it self, disjoyned from the center.

Pleydell. Sermon at Funeral of Mr. Joseph Glanvil.

But indeed there are crowds of people who put themselves in no method of pleasing themselves or others; such are those whom we usually call *indolent* persons. *Indolence* is methinks an intermediate state between pleasure and pain, and very much unbecoming any part of our life after we are out of the nurse's arms.—*Spectator*, No. 100.

It is an established opinion amongst some men, that there are in the understanding certain *innate* principles; some primary notions, κοιναι εννοιαι, characters, as it were, stamped upon the mind of man, which the soul receives in its very first being, and brings into the world with it. It would be sufficient to convince unprejudiced readers of the falseness of this supposition, if I should only shew (as I hope I shall in the following parts of this discourse) how men, barely by the use of their natural faculties, may attain to all the knowledge they have, without the help of any *innate* impressions; and may arrive at certainty, without any such original notions or principles

Fr. *Intellect, intelligent*; It. *Interletto, intelligente*; Sp. *Intelecto, inteligente*; Lat. *Intellectus, intelligens*; from *intelligere*, (*inter*, between, and *legere*, to choose.) Cum duo sunt, ubi utra sententia præstet, dubitari potest, *interque*, ea illam legimus, sive *eligimus*, quæ verior, tum rem *interlegere*, sive *intelligere* dicimus, (Voss.) *Intelligere*, then, means to choose between, to see or perceive the difference, between; and, thus, generally, to see or perceive. Intelligent,—

Perceiving, understanding; having power or ability to understand; knowing, skilful, well informed; informing or giving information.

Intelligence,—understanding, information: it is also applied (in opposition to corporeal agents) to spiritual agents or beings; all spirit, soul, or mind.

Intellection is an old word, which Campbell attempted to revive. See the quotation from Stewart.

For *intelligece*, which cōmeth of *intelligentia*, is the perceiving of that, which is fyrst conceyued by vnderstādyng, called *intellectus*. The internal and immanent faculties and acts of the reasonable soul (besides those of common sense, phantasie, memory, passion and appetite, common to men and inferiour animals) are *intellect* and will; and the proper acts of the *intellect* are *intellection*, deliberation, and determination or decision.—*Hale. Origin. of Mankind*, p. 28.

There is an accommodation, and suitable adaptation, between the *intellective* faculty and the *intelligible* object, the object as it were thrusting it self into the faculty, and the faculty receiving and perceiving the object.—*Id. Ib.* p. 2.

Man above all visible creatures is able to perform that duty *intellectually* and intentionally, and fitted to be the common procurator and High Priest of *unintelligent* creatures, *intelligently* on their behalf to present all their prayers and acclamations to their common creator, lord, and sovereign.—*Hale. Origin. of Mankind*, p. 372.

Upon these *intellectualists*, which are notwithstanding, commonly taken for the most sublime and divine philosophers, Heraclitus gave a just censure, saying, "Men sought truth in their own little worlds, and not in the great and common world."—*Bacon. Advancement of Learning*, b. i.

St. Paul permitting marriage, 1 Cor. 7. seems to permit even that also for hardness of heart only, lest we should run into fornication, yet no *intelligent* man thence concludes marriage allowed in the Gospel only to avoid an evil, because no other end is there expreet.—*Id. Tetrachordon.*

If we consider what Numa ordained concerning images, and the representation of the gods, it is altogether agreeable unto the doctrine of Pythagoras, who thought that God was neither sensible nor mortall, but invisible, incorruptible, and onely *intelligible*.—*North. Plutarch*, p. 54.

The means of derivation, and immediate union of these *intelligible* objects to the understanding, are various: sometimes divine and supernatural, as by immediate irradiation or revelation; sometimes artificial and instituted, as by discourse and instituted signs, and thus *intelligibles* are conveyed from one man to another by words or writing.
Hale. Origin. of Mankind, p. 2

If by a divine act or decree it became so, and not by our act, then we only are said to consent, because God would have it so; which, if we speak *intelligibly*, is to charge God with making us guilty when we were not, to say we consented when we did not.—*Bp. Taylor. Of Repentance*, c. 6. §1.

For the entity of all theoretical truth is nothing else but clear *intelligibility*, and whatever is clearly conceived, is an entity and a truth.—*Cudworth. Morality*, b. iv. c. 5.

I cannot but think, that, having to the privilege of a much nearer access than is allowed us to contemplate God's perfections, the advantage of having incomparably more illuminated *intellects* to apprehend them with, they must frame otherguise conceptions of the divine attributes, and glorify the possessor at an otherguise rate, than is allowed to those, whose understandings are so dim, and whose residence is so remote from that blessed place, where the perfections they would extol are most displayed.
Boyle. Works, vol. i. p. 37

For it is ascribed to no less persons than to Plato, and Aristotle after him, (as borrowing it from him) and that by several of the most eminent interpreters of the latter, both ancient and modern; all of them proceeding upon this ground, that in order to the actual *intellection* of any object, there is a spiritual *intellectual* light necessary to enable the object to move, or affect the *intellective* faculty, which yet the object cannot give to itself, nor yet strike or move the said faculty without it.—*South*, vol. iv. Ser. 5. Note.

Was it no act of love therefore in God, to give us souls endued with such bright faculties, such lively images of himself, which he might have thrust into the world with the short and brutish perceptions of a few silly senses; and like the beasts, have placed our *intellectuals* in our eyes or in our noses?—*South*, vol. viii. The knowledge of celestial bodies is not well to be attained, nor consequently the theories proposed of them to be *intelligently* judged of, without arithmetick and geometry, (those wings on which the astronomer soars as high as heaven.)
Boyle. Works, vol. iii. p. 429.

Thus far we can speak *intelligibly* concerning the eternal duration of the self-existent Being; and no Atheist can say this is an impossible, absurd, or insufficient account. It is, in the most proper and *intelligible* sense of the words, to all the purposes of excellency and perfection, *interminabilis vitæ tota simul et perfecta possessio*, the entire and perfect possession of an endless life.—*Clarke. Attributes*, Prop. 5.

I shall only tell you in general, that I see no necessity that *intelligibility* to a human understanding should be necessary to the truth or existence of a thing, any more than that visibility to a human eye should be necessary to the existence of an atom, or of a corpuscle of air.
Boyle. Works, vol. iv. p. 450.

But this abstract idea being something in the mind between the thing that exists and the name that is given to it, it is in our ideas that both the rightness of our knowledge, and the propriety or *intelligibleness* of our speaking consists.
Locke. Of Hum. Underst. b. ii. c. 32.

For such is all the mental food purvey'd

Of syntax, truly, but with little more.
Cowper. Tirocinium.

The word *intellect* can be of no essential use whatever, if the ambiguity in the signification of the good old English word *understanding* be avoided; and as to *intellection*, which a late very accurate writer has attempted to introduce, I can see no advantage attending it
Stewart. Philos. of the Human Mind, vol. ii. Prel. Obs.

Whether this be possible or not, it is evident that man is not such a being; his good consists in the vigorous exertion of his active and *intellective* powers upon their proper objects.—*Reid. On the Intellectual Powers*, c. 2. Ess. 3.

Sure Heaven deprives the great of inward light,
To quench their souls in *intellectual* night,
And makes them scorn the bard's mellifluous lays,
That death may blot their name in future days.
Hoole. Orlando Furioso, b. xxxv.

Whether he acts immediately in the production of those events, or by subordinate *intelligent* agents, or by instruments that are *unintelligent*, and what the number, the nature, and the different offices of those agents or instruments may be; these I apprehend to be mysteries placed beyond the limits of human knowledge.

Mallet. Amyntor & Theodora, c. 2.

In affirming that the universe proceeds from chance, it would appear that Atheists mean, either that it has no cause at all, or that its cause did not act *intelligently*, or with design, in the production of it.

That any interest may be taken in the two hymns addressed to Pracriti, under different names, it is necessary to render them *intelligible* by a previous explanation of the mythological allusions, which could not but occur in them.

Their [the clergy] luxury and *intemperance* lies in this, that they had rather eat at their own poor home, than lick up the crumbs at the end of their haughty neighbour's table, and much less under it; that they scorn to sneak here and there for a dinner, or beg their daily bread of any but of God himself.—*South*, vol. v. Ser. 11.

I do not allow the pretence of *temperance* to all such as are seldom or never drunk, or fall into surfeits; for men may lose their health without losing their senses, and be *intemperate* every day, without being drunk perhaps once in their lives.—*Sir W. Temple. On the Cure of the Gout.*

Thus, for instance, a man that is rashly and *intemperately* angry upon any occasion, this very passion is a sin in him, and he ought to ask God forgiveness for it.
Sharp, vol. iii. Ser. 8.

I am very well aware that divers diseases, that extraordinarily invade great numbers of people at the same time, (and were therefore by the Greeks called epidemical) may be rationally referred to manifest *intemperateness* of the air.—*Boyle. Works*, vol. v. p. 50.

In these regions, I say, it is not imaginable; but that great *intemperatures* of the air, especially in point of heat, stench of dead bodies killed in fights, unwholesomeness of aliments, malevolent aspects of celestial bodies, high provocations of the divine justice, and in short all the causes, to one or other of which the several parties of physicians are wont to refer the plague, should be wanting any more than in our Europe.—*Id. Ib.* p. 58.

Merely to be *temperate* requires no great effort; which makes *intemperance* (considering its consequences whereof no person can be ignorant) the more inexcusable.
Beattie. Moral Science, pt. iii. c. 3. s. 3.

But to say that, without their fall, there never would have been any Hell at all, and that the same or equal punishment should not then have been inflicted upon wicked men for the same crimes, as there now shall: is representing God like an arbitrary tyrant, who, without caring to make an exact, equal, and particular distribution of justice, deals with all offenders of all ranks and degrees alike, because they have all *interpretatively* joined in opposing his authority.—*Clarke. Letter to Mr. Dodwell.*

The sacred books, you say, are full and plain,

This soveraigntie and prehemineuce determined euery five daies and thus went it through them all round in course. After which manner they continued the space of one yeare. And the governement upon this occasion was (as is still at this day) called *interregnum*, (the *interregencie*.)

Holland. Livie, p. 1

And the consuls also being sicke and thereby disabled to governe, it was thought good to take new counsell and aduise of auspices or tokens of birds, by an *interregnum*. The searching purity and spirituality of the same doctrines equally encountring their worldly interests, and their predominant beloved corruptions, soon caused in their minds a secret loathing of the severity of those truths, and so by degrees, a direct hatred and hostility against them, as the great disturbers of those pleasures, and *interrupters* of the caresses of those lusts, which had so bewitched their hearts, and seized their affections.—*South*, vol. iv. Unsound, infirm, weak; of no force or efficacy, forceless, inefficient.

The noun is usually applied to persons of an unsound state of body, unhealthy.

The form by which the thing is what it is, is oft so slender and undistinguishable, that it would soon confuse, were it not sustain'd by the efficient and final causes, which concur to make up the form, *invalid* otherwise of itself.

If a son marries without his father's consent, the law says it is void; but yet it is not so void, but that the father's approbation makes it valid without marrying again: which could not be if it were naturally *invalid*, but therefore it is both naturally and ecclesiastically good.

Socrates was pronounced by the oracle of Delphos to be the wisest man of Greece, which he would put from himself, *ironically* saying, "There would be nothing in him to verify the oracle except this, that he was not wise, and knew it; and others were not wise, and knew it not."

When each became incorporated and sworn into the society, (as hath been proposed,) a poet or orator would have no more to do but to send to the particular traders in each kind, to the metaphorist for his allegories, to the *ironist* for his sarcasms, &c.
Martinius Scriblerus. Art of Sinking in Poetry, c. 13.

When our words convey a sense contrary to what we express, but agreeable to what we mean and are understood to mean, the trope (or rather the figure) is called *irony*: as if with a peculiar look and accent we were to say, he is a wise man indeed, meaning, that he is the reverse.
Beattie. Moral Science, pt. iv. c. 1. s. 1.

Socrates used it so happily, for the instruction of his friends and the confutation of the sophists, that he got the name of ὁ εἴρων, or the *ironical* philosopher.—*Id. Ib.*

Though, perhaps, he may use the term [wise man] a little *ironically*, and in reproof of the divisions, before objected to them; yet the logical inference drawn from an appeal to such a character holds not the less for the sarcasm in which it is conveyed.—*Warburton. IR-RA'DIATE, *v.* }
IRRA'DIATE, *adj.* }
IRRADIA'TION. }
IRRA'DIANT. }
IRRA'DIANCE. }

It. *Irradiare*; Sp. *Irradiar*; Lat. *Irradiare*; *in*, and *radiare*, to shine, (as the *rays* of the sun.) See CORRADIATION. Vossius derives *radius* from the Gr. Ῥάβδος, *virga*, a *rod*, first applied to a measuring *rod*, then to any thing similar to it in length; the spokes of a wheel, the bone of the arm, a weaving tool, the lines which the sun emits.

To emit rays of light, to shine, enlighten, or illuminate, (as the *rays* or beams of the sun do;) to brighten, to cheer, to warm, to animate.

Now near Atrides' Court, before the gates,
Bright in celestial graces, Paris waits
Not Semele a youth so lovely bare:
(Your pardon, Bacchus! tho' Jove's son you are)
Such beauty did his looks *irradiate*.
Sherburne. The Rape of Helen.

So much the rather thou celestial light
Shine inward, and the mind through all her powers
Irradiate. *Milton. Paradise Lost*, b. iii.

Probable, therefore, it is, that the moon is illuminate, not in manner of a glass or crystal stone, by the bright *irradiation* and shining beams of the sun striking through her.

Love not the heav'nly Spirits, and how their love
Express they?—by looks only, or do they mix
Irradiance, virtual or immediate touch?

Adam, in the state of integrity, had a knowledge of certain things, unaccountable upon any other hypothesis but this, that his mind was *irradiated* with a divine illumination.
Bp. Bull, vol. ii. Dis. 5.

Sooner may a dark room enlighten itself, without the *irradiation* of a candle or the sun, than a natural understanding work out its own ignorance in matters of faith.
South, vol. viii. Ser. 13.

For when thy smile *irradiates* yon blue fields
Observant Indra sheds the genial show'r,
And pregnant Earth her springing tribute yields.
Jones. A Hymn to Lacshmi.

——— For what avail'd

The sov'reign planter's primal work display'd.
Mason. The English Garden, b. i.

So the bright lamp of night, the constant moon,
Unwearied, does her circling journey run;
Oft thro' the fleecy cloud *irradiant* bends,
And to benighted lands her influence lends.
Boyse. To Marcella.

Thou awfull depth of wisdom unexplor'd!
Thou height, where never human fancy soar'd!
Supreme *irradiance!* speed the distant ray,
Far speed the dawn of thy internal day.
Brooke. Universal Beauty, b. vi.

IR-RA'TIONAL.
IRRA'TIONALLY.
IRRATIONA'LITY.

Fr. *Irrationnel*; It. *Irrazionale*; Sp. *Irracional*; Lat. *Irrationalis*; *in*, (priv.) and *rationalis*, from *ratio*, and this from *ratus*, part. of *re-or*, *reri*, to think.

Not consistent with right reason or sound sense; contrary to, destitute of, sound sense, of understanding; unreasonable; foolish, absurd.

Yet these are the men cry'd out against for schismatics and sectaries, as if, while the temple of the Lord was building, some cutting, some squaring the marble, others hewing the cedars, there should be a sort of *irrational* men who could not consider there must be many schisms and many dissections made in the quarry and in the timber, ere the house of God can be built
Milton. Of Unlicensed Printing.

But for the poor shiftless *irrationals*, it is a prodigious act of the great Creator's indulgence that they are all ready furnished with such cloathing, as is proper to their place and business.—*Derham. Physico-Theology*, b. iv. c. 12.

Nothing can be more *irrational* than for a man to doubt of, or to deny the truth of any thing, because it cannot be made out by such kind of proofs, of which the nature of such a thing is not capable.—*Wilkins. Natural Religion*, b. i. c. 3.

Things so full of paradox and brutish *irrationality*, that could great sins be fit to be laughed at, they were fitter to be run down with scoff and sarcasm, than to be thought worthy of a serious confutation.—*South*, vol. x. ser. 5.

It may not *irrationally* be doubted, whether or no, if a man were raised to the very top of the atmosphere, he would be able to live many minutes, and would not quickly die for want of such air as we are wont to breathe here below.
Boyle. Works, vol. i. p. 165.

When we profess to restore men to the capacity for property, it is equally *irrational* and unjust to deny them the power of improving their minds as well as their fortunes.
Burke. On the Penal Laws against the Catholics.

These are all of them suggestions of internal sense, consciousness, or reflection, which we believe, because we feel them to be true; and which, if we were not to believe them, would bring on us the charge of *irrationality*.
Beattie. Moral Science, pt. iv. c. 2.

IR-RECLA'IMABLE.
IRRECLA'IMABLY.

In, (priv.) *re*, and *claimable*, from *claim*, (qv.) Our usage of *claim*, Skinner thinks, is, with a slightly varied signification, from the Lat. *Clam-are*, i. e. to demand a right by calling loudly for it. To *reclaim*, is, to *claim* again, to recall, to recall, (sc.) from a wrong course. And *irreclaimable*,—

That cannot be recalled (from a wrong course, from error, from vice;) that cannot be recovered or reformed; irrecoverable.

We may then easily apprehend, when some men's natures had so incredibly a depraved tincture, and such impetuous, ungovernable, *irreclaimable* inclinations to what is vitious, while others have nothing near such wretched propensions, but by good education and good discipline are mould able to vertue.—*Glanvill. Pre-existence of Souls*, c. 16.

But others *irreclaimeably* persist in their rebellion, and sink more and more into the body, and the relish of its joys and pleasures.—*Id. Ib. The Aerial State.*

What, therefore, these things considered, can we expect, but that God should pass the same sentence upon this unthankful, this *irreclaimable* people of England, that the lord of the vineyard passed upon the fig tree in the parable. Cut it down, why doth it incumber the ground?
Sharp, vol. ii. Ser. 1.

IR-RE/CONCILE, *v.* }
IRRECONCI'LABLE. }
IRRECONCI'LABLENESS. }
IRRECONCI'LABLY. }

Fr. *Irréconciliable*, It. *Irreconciliabile*, Sp. *Irreconciliable*; *in*, (priv.) *re*, and *conciliable*, from *conciliate*; to unite and make friends again, to bring to concord or agreement. *Irreconcile*,—

To hinder or prevent a *reconciliation*, and, consequentially, to cause or create a dislike to, a disunion from.

Irreconcilable,—that cannot be brought again to peace, concord, or agreement; cannot be made to agree, or be consonant to, or consistent with.

As the object calls for our devotion, so it must needs *irreconcile* us to sin.—*Bp. Taylor. Life of Christ*, pt. iii. 15.

If a servant, under his master's command, transporting a summe of money, be assayled by robbers, and dye in their *irreconcil'd* iniquities, you may call the businesse of the master the author of the servant's damnation. But this is not so.—*Shakespeare. Henry V.* Act iv. sc. 1.

Man, out of the pretended care of peace and unity, being caught in the snare of his impious boldness to correct the will of Christ, brought forth to himself upon the church that *irreconcilable* schism of perdition and apostacy, the Roman antichrist.—*Milton. Reason of Ch. Government*, b. i. c. 6.

Bee but pleased to cast your eyes upon the first chapter of that booke of mine, (which is thus objected to me in a cameleese exprobation,) that which long since I wrote, of the *irreconcileableness* of Rome
Bp. Hall. The Reconciler To the Reader

The doctors differ infinitely and *irreconcileably* in saying what is and what is not venial.
Bp. Taylor. Dissuasive from Popery, pt. i. § 6.

The truth of the main religion, of which doctrines make a part, is so far positively proved by real and uncontested miracles, and other competent arguments, that nothing but the manifest and *irreconcilable* repugnancy of its doctrines to right reason, ought to hinder us from believing them
Boyle. Works, vol. iv. p. 150

Discourage them from repeating their transgressions, give them a deep sense of the heinous nature of sin, and of God's extreme hatred and utter *irreconcileableness* to it.
Clarke. Evidences, Prop. 13.

There are several in the world (and those of no small note for godliness too) who take up disgusts easily, and prosecute them *irreconcilably*.—*South*, vol. vi. Ser. 3.

——— But gothic, rude,

Certain it is that the Bramins are *irreconcileably* divided among themselves upon what are the doctrines of the Shastah.—*Mickle. Inquiry into the Bramin Philosophy.*

IR-RECO'VERABLE. } *In*, (priv.) *re*, and
IRRECO'VERABLY. } *cover*. Lat. *Co-operire*, to put, place, or lay over, so as to shelter or protect. To *recover*, or *cover* again, (sc.) a wound, and thus to heal it; and, generally, to restore to health; to restore.

Irrecoverable,—that cannot be restored; that cannot be regained; wholly lost, not to be had or got, obtained or procured again.

Idle and ill disposed persons are drawne away with every temptation, they have both leisure and will to entertaine every sweet allurement to sin, and wantonly prosecute their own wicked lusts till they fall into *irrecoverable* damnation.
Bp. Hall. Occasional Meditations, § 63.

That mind must needs be *irrecoverably* depraved, which either by chance or importunity, tasting but once of one just deed, spatters at it and abhors the relish ever after.

In November this year happened a storm at north-west, with a spring tide, so violent, as gave apprehensions of some loss *irrecoverable* to the province of Holland.
Sir W. Temple. Mem. from 1672 to 1679.

Here, it is said, he [Charles V.] began to reflect on the vanity of the world; when he, who had but a year before given law to Christendom, was now driven to so low an ebb, that, as he had *irrecoverably* lost all his footing in Germany, so in all other things his counsels were unlucky.
Burnet. Hist. of the Reformation, an. 1552.

——— Life forsook
My heart, which *irrecoverably* lost
All sense of duty both to thee and Greece.
Glover. Athenaid, b. xix.

IR-RECU'PERABLE. Fr. *Irrécupérable*; It. *Irrecuperabile*; Sp. *Irrecuperable*; Lat. of the Lower Ages, *Irrecuperabilis*; *in*, (priv.) and *recuperare*, or *recipere*, from *recipere*, to take again.

That cannot be taken again, cannot be regained or recovered; irrecoverable.

Thus *irrecuperable* joy is went, anoy endlesse is entred.
Chaucer. Testament of Love, b. i.

O what cause of reproche shall the decay of archers be to vs nowe lyuying! Ye what *irrecuperable* damage either to vs or them, in whose time nede of semblable defence shall happen.—*Sir T. Elyot. The Governor*, b. i. c. 27.

IR-REDE'EMABLY. *In*, (priv.) and *redeem*. Lat. *Redimere*, to buy again.

To a degree that cannot be *redeemed* or bought again, or repurchased.

But though past time be gone, we are not to consider it *irredeemably* lost.—*Blair*, vol. iii. Ser. 3.

IR-REDU'CIBLE. *In*, (priv.) and *reducible*, from *reducere*, to bring back, to bring unto.

When a man is come to such a high degree of malice, and impudence, and obstinacy in sinning, that he dares affront the Holy Ghost, by ascribing his works to the devil, it is just in God to deny that person that grace which is necessary to his repentance, and so to his pardon; and leave him *irremediably* in the condition he hath brought himself into.

Glanvill. Pre-existence of Souls, c. 5.

IR-REPU'TABLE, i. e. disreputable.

It's very *irreputable* for a young woman to gad about to men's lodgings, she that appears most in their company stays the longest for a husband.—*Female Tatler*, No. 4.

IRRESISTIBI'LITY.
IRRESI'STLESS.
IRRESI'STENCE.

That cannot be stood up against or withstood, cannot be opposed, borne up against, or supported; insupportable.

Irresistless is an improper compound.

Whoever believes this, and thinks also that this grace is necessary to make him good and happy, and that nothing he can do can obtain it, or draw it near him; what can we expect, but that such a man should neglect all care and diligence in order to the making himself better, in expectation of this necessary *irresistible* grace, without which his endeavours are at best impertinent!—*Glanvill*, Ser. 10.

The speare and dart strikes afarre off, pierces where it strikes, smites unseene, unevitably; for the remotenesse, violence, *irresistiblenesse* of the blow, are the enemies of the church described by the speare and dart.
Bp. Hall. The Defeat of Cruelty. A Sermon.

And if grace be such a force as makes men good *irresistibly*, and this grace bestow'd only one here and another there, meerly as arbitrary will shall dispose it, the greatest part of men (for ought I see) will have fair apology for their sins, at least for their neglects, since they wanted that which was necessary to make them better, and God alone could have given them.—*Glanvill*, Ser. 10.

On the Calvinists part these two things, *viz.* the physical predetermination and (which must necessarily follow thereupon) the *irresistibility* of the work of grace, seem to you to be so inconsistent with the natural liberty of the will, and so impossible to be reconciled therewith, that you cannot yet by any means fully assent thereto.
Hammond. Works, vol. i. p. 659.

Many of these crimes, which all the laws of mankind do punish, as wilful murder, may be committed through the force of a violent passion, and if that be *irresistible*, then the laws which punish it are not founded on reason and justice.—*Shillingfleet*, vol. iv. Ser. 7.

God can work good out of evil, as he pleases, and *irresistibly* sways all manner of events on earth, directing them finally for the best, to his creation in general, and to the ultimate end of his own glory in particular.

IR-RE'SOLUBLE. IRRE'SOLUBLENESS. IRRE'SOLUTE. IRRESOLU'TION. IRRESO'LVED. IRRESO'LVEDLY. } Fr. *Irrésolu*; It. *Irresoluto*; Sp. *Irresoluto, irresoluble*; Lat. of the Lower Ages, *Irresolubilis*; *in*, (priv.) and *resolubilis*, from *resolvere, resolutum*, to free from; (*re*, and *solvere*,) to loosen or set free; to disjoin; to disunite; and, thus, destroy the solidity or continuity. *Irresoluble*,—

That cannot be freed from, cannot be loosened or released, disunited or disjoined.

Resolute,—i.e. *resolved* or freed from restraint or confinement, from contention or strife, dispute or doubt; and, thus, determined, decided. And *irresolute*,—

Undetermined, undecided; inconstant, unsettled, unsteady, wavering.

And Hall appears to mean by *irresoluble*,—that cannot be freed, released or relieved, (from guilt or the pangs of guilt;) that cannot be calmed, quieted, or eased.

The second is in the *irresoluble* condition of our souls after a known sin committed; wherein the burdened conscience *not being able to give ease* unto itself, seeks for aid to the sacred hand of God's penitentiary here on earth, and there may find it.—*Bp. Hall. Cases of Conscience*, Dec. 3. Case 9.

So that if any here doth find his heart
To fail him for this noble work, or stands
Irresolute this day, let him depart,
And leave his arms behind, for worthier hands.

Through these methods the natural *irresolution* of my youth was much strengthened, and having no leisure, if I had had inclination, to make pertinent observations in writing, I was thus confirmed a very early wanderer.
Guardian, No. 60.

Temptations to sin would never be called so, if there were not something tempting in them, and whatever is tempting must have a free appearance in one respect or other; and while a person is *irresolved*, he suffers all the force of temptation to call upon him.—*Stillingfleet*, vol. iv. Ser. 11.

As some of them were vaculists, and others plenists, they have explicated the ascension of water in sucking-pumps upon very different grounds; so that many ingenious men continue yet *irresolved* in this noble controversy.
Boyle. Works, vol. iii. p. 198.

Divers of my friends have thought it strange to hear me speak so *irresolvedly* concerning those things, which some take to be the elements, and others the principles of all mixed bodies.—*Id. Ib.*

Woven with pains into his plan,
To-morrow rends away.—*Cowper. Human Frailty.*

I was weary of continual *irresolution*, and a perpetual equipoise of the mind; and ashamed of being the favorite of those who were scorned and shunned by the rest of mankind.—*Rambler*, No. 96.

Not looking to or regarding, not keeping in view or in consideration, not considering or contemplating; not discerning or distinguishing.

These two doctrines, 1. of Christ's dying for none but the elect, 2. of God's absolute *irrespective* decrees of election and reprobation, are inconvenient interpositions, which are most apt to obstruct and hinder the building of good life, even where the foundation thereof is received intirely, and not questioned in any part thereof.
Hammond. Works, vol. i. p. 462.

When he is all the while convinced that all the promises, that he can possibly have any part in, belong to him absolutely and *irrespectively*, and shall no more be secured to him upon the performance, than upon the neglect and omission of that duty!—*Id. Ib.* p. 485.

They advance to such a state of strength, as to be able to feed on the solid meat of vertue, which is the discharge of our duty to God and man *irrespectively* to humane praise.
Mountague. Devoute Essayes, pt. I. Treat. 10. s. 4.

As God's decree in chusing Jacob and rejecting Esau, is most free and without relation to any good or evil done by them; so the execution of that decree in conferring grace upon one, and with holding it from the other, is equally free and *irrespective*.—*South*, vol. viii. Ser. 13.

Can he ascribe this reprieve to any thing but to mercy, to mere undeserved mercy, that places the marks of its favour absolutely and *irrespectively* upon whom it pleases?

That cannot be answered for or secured; that cannot or may not answer for; subject or liable to no answer, to give no answer or account; unaccountable.

That no unbridled potentate or tyrant, but to his sorrow for the future, may presume such high and *irresponsible* licence over mankind, to havoc and turn upside-down whole kingdoms of men, as though they were no more in respect of his perverse will than a nation of pismires.
Milton. Tenure of Kings & Magistrates.

What a dangerous thing therefore is it for men to intrust such a treasure as their innocence and religion in such *irresponsible* hands, and to give those outward things, which are the temptations of vice, a power to dispose of their virtue.

They left the crown, what, in the eye and estimation of law, it had ever been, perfectly *irresponsible*.
Burke. On the French Revolution.

IR-RESTRA'INABLE. See UN-RESTRAINED. That cannot be restrained, held or kept in.

It can hardly be probable . . . that any free people should give [their kings] an absolute, irrevocable, uncontrolable supremacy over them, superior to, *irrestrainable*, irresistable, or unalterable by their owne primitive inherent nationall soveraignety, out of which their regall power was derived.
Prynne. Treachery & Disloyalty, p. 91.

The condition of Gloriana, I am afraid, is *irretrievable*, for Strephon has had so many opportunities of pleasing without suspicion, that all which is left for her to do is to bring him, now she is advised, to an explanation of his passion, and beginning again, if she can conquer the kind sentiments she has already conceived for him.
Spectator, No. 423.

The first and principal design for transcribing these, which are now printed, from the original manuscripts in shorthand, (for all his sermons were wrote in characters,) was to preserve and rescue them from the danger they were in of being *irretrievably* lost.—*Sharp*, vol. v. Pref.

They [soldiers and seamen] see their friend fall without any of that lamentation which is indulged in security and idleness, because they have no leisure to spare from the care of themselves; and whoever shall keep his thoughts equally busy, will find himself equally unaffected with *irretrievable* losses.—*Rambler*, No. 48.

Men complain of nothing more frequently than of deficient memory: and, indeed, every one finds that many of the ideas which he desired to retain have slipped *irretrievably* away.—*Idler*, No. 72.

IR-RETU'RNABLE. That cannot be *turned* or cannot *turn* again.

Forth *irreturnable* flieth the spoken word,
Be it in scoffe, in earnest, or in bourd.
Without returne, and vnreceiu'd, it hangs,

It is to have all the venom and malignity, without the wisdom of the serpent: for surely no wise atheist ever in his discourse, thought it becoming to speak *irreverently* of God, or to scoff at religion.—*South*, vol. viii. Ser. 1.

Forasmuch as in every *irreverent* act, a man treats God as if he had indeed no need of him, and behaves himself as if he stood upon his own bottom, absolute and self-sufficient. That is the natural language, the true signification and import of all *irreverence*.—*South*, vol. ii. Ser. 3.

In a word, if reason and piety have no weight, let natural shame deter us, when we can never merit this distinction, at least from dishonouring the grace by *irreverent* cavils at the dispensation.—*Warburton. Divine Legation*, b. ii. s. 4.

Yet there are seasons, when his own blunders dispose him to be jocular, and he *irreverently* aims at wit with the face of an Irish Inquisitor.—*Id.* vol. xi. *Remarks on Tillard.*

Neither doth it a little conduce to our safety, that since marriage once passed is *irreversible*, we may have some breathing time betwixt our promise and accomplishment, to inform ourselves throughly before it be too late, what we must trust to for ever.
Bp. Hall. Cases of Conscience, Dec. 4. Case 6.

It may be justly feared, that the title of fundamentals, being ordinarily bestowed on, and confin'd to the doctrines of faith, hath occasioned that great scandal, or block of offence in the church of God, at which so many myriads of solifidians have stumbled and fallen *irreversibly*, by conceiving heaven a reward of true opinions, of which vicious practices, though never so habitually and indulgently continued in, to the last, would never be able to deprive them.
Hammond. Works, vol. i. p. 402.

28. [May] At the Rolls Chapell preached the famous Dr. Burnet on 2 Peter, i. 10. describing excellently well what was meant by election; *viz.* not the effect of any *irreversable* decree, but so call'd because they embraced the Gospel readily, by which they became elect or precious to God.
Evelyn. Memoirs, vol. i. an. 1682.

How does the impenitent sinner know but that God being provoked by his present impenitence, may *irreversibly* propose within himself to seal up these fountains, and shut him up under hardness of heart and reprobation of sense? and then farewell all thoughts of repentance for ever.
South, vol. ix. Ser. 6.

Saint Paul, in the eleventh chapter of the Epistle to the *Romans*, observes, that God had rejected the Jews, and chosen the Gentiles to be his people; but, says he, this rejection of the Jews, as it is not universal, so neither is it final and *irreversible*.—*Jortin. Remarks on Eccl. Hist.*

IR-RE'VOCABLE. IRRE'VOCABLY. } Fr. *Irrévocable*; It. *Irrevocabile*; Sp. *Irrevocable*; Lat. *Irrevocabilis*; *in*, (priv.) and *revocabilis*, from *revocare*, to call back, to recall, *re*, and *vocare*, to call.

IRRIGATE, *v.* IRRIGA'TION. IRRI'GUOUS. } It. *Irrigare*; Lat. *Irrigare*, *in*, and *rigare*, which Vossius conjectures to be from *rivus*, flowing water; from Gr. Ῥε-ειν, to flow.

To overflow, to water, to wet, to moisten, to bedew.

Whereas we say that bloud, coming to a part to *irrigate* it, is, by its passage through it and some little stay in it, and by its frequent returne thither, at length transmuted into the nature of that part.—*Digby. Of Bodies*, c. 24.

So that we see, the motion of the heart depends originally of its fibers *irrigated* by the blood.—*Id. Ib.* c. 26.

To conclude from hence, that air and water have both one common passage, were to state the question upon the weaker side of the distinction, and from a partial or guttulous *irrigation*, to conclude a total descension.
Brown. Vulgar Errours, b. iv. c. 8.

IT. } The past part. of the Goth. *Hait-*
ITSELF. } *an*; A.S. *Hat-an*, *nominare*, and the meaning, viz. *nominatum*, i. e. the said, perfectly (adds Tooke) corresponds with every use of the word *it* in our language. *It* was applied by our old writers to the masculine and feminine as well as to the neuter, and to the plural as well as singular. (See Hs.) Mr. Tyrwhitt has noticed the usage of this word *instead* of *he* and *she*. (See the three quotations from the *Canterbury Tales*.) Dr. Jamieson thinks it an objection to this etymology, that the Goth. *Ita (it)* cannot be viewed as the participle of the Goth. *Hait-an*, because the aspirate is not retained. "Can we" (he asks) "reasonably view *ita* as the participle of *hait*-an? Why is the aspirate thrown away?" The obvious answer seems to be, that *ita* was originally written *hita*, (see *Lye*, in v.) as *it* was written *hit*, and that by usage the aspirate was ultimately thrown away in both languages.

Pleasantness, delightfulness.

For the act of laughter, which is a sweet contraction of the muscles of the face, and a pleasant agitation of the vocal organs, is not merely voluntary, or totally within the jurisdiction of ourselves; but as it may be constrained by corporal contraction in any, and hath been inforced in some even in their death, so the new, unusual, or unexpected *jucundities*, which present themselves to any man in his life, at some time or other will have activity enough to excitate the earthiest soul, and raise a smile from most composed tempers.—*Brown. For wit living most in the assemblage of ideas, and putting those together with quickness and variety, wherein can be found any resemblance or congruity, thereby to make up

pleasant pictures, and agreeable visions in the fancy; *judgment*, on the contrary, lies quite on the other side, in separating carefully ideas one from another, wherein can be found the least difference, thereby to avoid being misled by simulitude, and by affinity to take one thing for another.

The parliaments were not wholly free from faction, I admit; but this evil was exterior and accidental, and not so much the vice of their constitution itself, as it must be in your new contrivance of sexennial elective *judicatories*.
Burke. On the French Revolution.

The original power of *judicature*, by the fundamental principles of society, is lodged in the society at large; but as it would be impracticable to render complete justice to every individual, by the people in their collective capacity, therefore every nation has committed that power to certain select magistrates, who with more ease and expedition can hear and determine complaints: and in England this authority has immemorially been exercised by the king or his substitutes.—*Blackstone. Commentaries*, b. i. c. 7.

In this distinct and separate existence of the *judicial* power in a peculiar body of men, nominated indeed, but not removeable at pleasure, by the crown, consists one main preservative of the public liberty, which cannot subsist long in any state, unless the administration of common justice be in some degree separated both from the legislative and also from the executive power.—*Id. JUG. In A. S. *Ceac*, is a basin, pitcher, or other like vessel, (Somner.) And from *ceac*, Skinner is inclined to derive the English *jug*. Junius, from the A. S. *Juc-ian*, to yoke; to join, to add; because, perhaps, a *jug* contained the double of some smaller measure.

Let the glasse go round,

Somner interprets *wiglian*, to *juggle*, to use sorcery, to cast a mist before; and *ge-wiglung*, deceit, *jugling*. Junius also thinks *jugler* may be referred to *wiglen*, which Somner too interprets a *juggler*.

To guile, to cheat, to impose upon, to deceive, to delude; to practise delusion; to give a false colour or appearance to; and as the Spanish, *Jugar de manos*, to play with the hand, to play tricks with the hand.

Jogelour, (see the first quotation from Chaucer,)—in the "old Boke" from Leland written *Jocular*,—a character, as Warton observes, often confounded or made the same with the Minstrell, is in Low Lat. *Joculator*, or *Jogulator*; i. e. mimus, scurra, (Du Cange,) a mimick or buffoon; and is supposed to be derived from the Lat. *Jocus*. But there does not appear any sufficient reason for separating the mimus from the artist in legerdemain, or assigning a different origin to their names.

JU'NE. Fr. *Juin*; It. *Giugno*; Sp. *Junio*; Lat. *Junius*. Vossius produces three etymologies, giving the preference to no one of the three; first, (from Varro) a *junioribus*; secondly, a *Junone*; and thirdly, a *jungendo*.

At length hee [King John] appointed to meete with the barons in a meddowe betwixt Staines and Windsore, which appointment hee obserued, and there graunted the liberties, without anie difficultie, the charter whereof is dated Giuen by our hand in Runningmede, betwixt Staines and Windsore, the 16. of *June*, the 17. of our raigne, vnto which all the whole realme was sworne.—*Stowe. K. John*, an. 1215.

JUNK. Sp. *Junco*; It. *Giunco*. A large ship of burden, of common use in the Indies. Unless, (says Skinner,) which is very probable, the word be of Indian origin, I should derive it, with Minshew, either from the Lat. *Juncus*, because this ship resembles a *rush*, (longâ caudâ *juncum* æmulatur,) or—a *jungendo*.

China also, and the great Atlantis, (that you call America,) which have now but *junks* and canoas, abounded then in tall ships.—*Bacon. New Atlantis.*

JUNK. Perhaps from the preceding *junk*; applied to,—

A piece of some length and thickness.

The word is commonly used by shipwrights to express remnants of cables *cut into small pieces*, which, after having been untwisted, are applied to various uses, for mats, calking ships, &c.

The stem is knotty, and, being cut into small *junks* and planted, young sprouts shoot up from each knob.
Grainger. The Sugar Cane, b. i. Note.

And these to be set on by plot and consultation with a *junto* of clergymen and licensers.—*Milton. Colasterion.*

Here it was worth observing with what resignation the *juncto* lords (as they were then called) were submitted to by their adherents and followers.
Swift. History of the last Four Years of Q. Anne.

No, one brazen wall, one diocesan bishop, will better defend this enclosed garden of the church, than a *juncto* of five hundred shrubs, than all the quicksets of Geneva, and all the thorns and brambles of presbytery.

Goldinge. Cæsar, fol. 72.

That which sounds as a deniall in the accused, is nothing else but a professed referring himself to a *juridicall* trial of that fact, which he is not bound to confess.
Bp. Hall. Cases of Conscience, Dec. 2. c. 8.

And if the censor, in his moral episcopacy, being to judge most in matters not answerable by writ or action, could not use an instrument so gross and bodily as *jurisdiction* is, how can the minister of the Gospel manage the corpulent and secular trial of bill and process in things merely spiritual? Or could that Roman office, without this *juridical* sword or saw, strike such a reverence of itself into the most undaunted hearts, as with one single dash of ignominy to put all the senate and knighthood of Rome into a tremble?
Milton. The Reason of Church Government, b. ii. c. 3.

To interpose a *jurisdictive* power over the inward and irremediable disposition of man, to command love and sympathy, to forbid dislike against the guiltless instinct of Nature, is not within the province of any law to reach, and were indeed an uncommodious rudeness, not a just power.
Id. Doctrine and Discipline of Divorce, b. ii. c. 21.

This person [John Jones] being entred and settled in a *jurist's* place, he applied himself to the study of the civil law.—*Wood. Athenæ Oxon*, vol. i.

A family seems to become a little kingdom, and a kingdom to be but a great family. Nor is it unlikely that this paternal *jurisdiction* in its successions, and with the help of accidents, may have branched out into the several heads of government commonly received in the schools.
Sir W. Temple. On the Orig. and Nature of Government.

The archbishops, bishops, and the rest of the clergy, were a sort of state apart, within the state itself, having a *jurisdiction* independent (as they pretended, and were usually allowed in that age) upon the secular power.
Id. An Introd. to the History of England.

The body corporate of the kingdom; in *juridical* construction, never dies.
Burke. Appeal from the New to the Old Whigs.

But the members of this court [of judicature] being themselves, like others, obnoctious to justice; and it being unsuitable to their dignity to come *juridically* before their inferiors; it was thought most agreeable to equity, that they should be tried by their peers, in their own court.
Warburton. Alliance between Church and State, b. ii. c. 3.

But at present, by the long uniform usage of many ages, our kings have delegated their whole *judicial* power to the judges of their several courts; which are the grand depositaries of the fundamental laws of the kingdom, and have gained a known and stated *jurisdiction*, regulated by certain and established rules, which the crown itself cannot now alter but by act of Parliament.
Blackstone. Commentaries, b. i. c. 7.

All this body of old conventions, composing the vast and voluminous collection called the corps diplomatique, forms the code or statute law, as the methodized reasonings of the great publicists and *jurists* form the digests and *jurisprudence* of the Christian world.

It is probable, these twelve men judged all cases upon evidence of matter of fact, and then gave their sentence, and appointed penalties according to what they esteemed most agreeable to justice and equity, so as the twelve men were at first both *jurors* and judges.
Sir W. Temple. An Introd. to the History of England.

It is true, the terms of *jury* and verdict were introduced by the Normans, with many others in the style and practice of our laws; but the trials by twelve men, with that essential circumstance of their unanimous agreement, was not only used among the Saxons and Normans, but is known to

be as ancient in Sweden, as any records or traditions of that kingdom, which was the first seat of the Gothic dominions in the North West parts of Europe, and it still remains in some provinces of that country.

Sir W. Temple. An Introd. to the History of England.

A celebrated French writer, who concludes, that because Rome, Sparta, and Carthage have lost their liberties, therefore those of England in time must perish, should have recollected that Rome, Sparta, and Carthage, at the time when their liberties were lost, were strangers to the trial by *jury*.—*Blackstone. Would it be a reasonable excuse for such a ruler to say, that one of these had received sufficient punishment in the very commission of such crimes; and that the other had a sufficient reward, both of doing his duty, and in his suffering for it? what could be more inconsistent with the rules of *justice*, and the wise ends of government.—*Wilkins. JUST, or JOUST, *v.* JUST, *n.* JOU'STER. JOU'STING, *n.*

Fr. *Jouster*; It. *Giostrare*; Sp. *Justar*. Junius derives from *Justle*, (qv.) Skinner from Lat. *Justa*, as applied to funeral rites; because the combats of the gladiators were exhibited at the performance of those rites; of the same opinion is Menage,—*justa munera*, i. e. *funebria*, quæ mortuis debita solvuntur. Others from the prep. *Juxta*. Salmasius,—from the more modern Gr. Ζωστρα, from the ancient Δωστρα; and this from the verb

Αιωθ-ειν, to thrust or push down, to cast down. The opinion of Menage and Skinner has simplicity and directness to recommend it; and to *joust* will signify,—

To take a part in *ordered* or *appointed* combats; to engage or fight at such combats, at tilt or tournament.

Dryden. The Wife of Bath's Tale.

KERN. } Skinner says, "Unless the word
KE'RNISH. } be (as is very probable) of Irish origin, I should derive it from the A. S. *Cyrran*; Dut. *Keeren*; Ger. *Kehren*; to turn; (see CHURN;) since they, the most nimble of all men, *turn* and twist their limbs this way and that with the utmost facility." It is applied generally to—

Clowns, boors, clownish peasantry.

The *kerne* is an ordinarie souldior, using for weapon his sword and target, and sometimes his peece, being commonlie so good markemen as they will come within a score of a great castell. *Kerne* signifieth (as noble men of deepe iudgement informed me) a *shoover of kell*, because they are taken for no better than for rakehels, or the dregs blackegard, by reason of the stinking sturre they keepe, whersoever they be.—*Stanihurst. The Desc. of Ireland*, c. 8.

They han fat *kernes*, and leany knaues,
Their fasting flocks to keepe.
Spenser. Shepheard's Calender. July.

The countrie *kernes* that fled [to Rome,] such also as were spoiled and wounded in the villages about reported more foule and cruell outrages in their cares, than were presented unto their eies, and set all the cittie in a hoat and angrie bruile.—*Holland. Livius*, p. 135.

And we for our parts, a populous and mighty nation, must needs be fain into a strange plight either of effeminacy or confusion, if Ireland, that was once the conquest of one single earl with his private forces, and the small assistance of a petty *kernish* prince, should now take up all the wisdom and prowess of this potent monarchy, to quell a barbarous crew of rebels.
Milton. The Reason of Church Government, b. i. c. 7.

KERN, *v.* } From the A. S. *Cirnel*, glandula; Dut. *Karne, herne*; Ger.
KE'RNEL. } *Kern*; Fr. *Cerneau*, perhaps,
KE'RNELLY. } says Skinner, from *Cerne*, a circle or round. The Fr. *Cerner*, to round, compass, wheel about, is from the A. S. *Cyrran*, vertere, convertere, to turn, to turn round. *Kernel* then will be—

That which is surrounded or enclosed, (sc.) in a shell or other envelope; that which has resemblances in form or in taste, or in other qualities, to those of the kernels of fruit, (sc.) certain concretions in the flesh.

To *kern*,—to granulate, to form into *corns* or grains, or small *kernels*.

Or else maintains the plot much starved with the wet,
Wherein his daintiest fruits in *kernels* he doth set.
Drayton. Poly Olbion, s. 15.

Prohibitions [were] published by the censors, forbidding expressly, That neither the *kernelise* part of a bore's necke, nor dormice, and other smaller matters than these to be spoken of, should be served up to the board at great feasts.

They who come hither to lade salt, take it up as it *kerns*, and lay it in heaps on the dry land, before the weather breaks in anew.—*Dampier. Voyages*, an. 1699.

The salt begins to *kern* or grain in April, except it is a dry season; for it is observed that rain makes the salt *kern*
Id. Ib. an. 1682.

He makes the breasts to be nothing but glandules of that sort they call *conglomeratæ*, made up of an infinite number of little knots or *kernels*, each whereof hath its excretory vessel, or lactiferous duct.—*Ray. On the Creation*, pt. i.

See how the Belgæ, sedulous and stout

Of *kernel-relish'd* fluids, the fair star
Of early Phosphorus salute.—*J. Philips. Cider*, b. ii.

KERSE. A. S. *Cerse*, or *cerse*, water-cresses. He cared not a *rush*, (says Tyrwhitt;) and Tooke's editor very properly adds this word *kers* to the instances of the transposition of *r*, as in *gers* for *grass*: *Kerse* has (he observes) been changed in common speech into *curse*, (8vo. ed. vol. ii. p. 10.)

Of paramours he raught he not a *kers*.
Chaucer. The Milleres Tale, v. 3,215.

For this thei tellen that ben wise,
Whiche is to striue, and haue the werse,
To hasten, is nought worth a *kerse*
Thyng, that a man male not acheue.
Gower. Con. Am. b. iii.

KE'RSEY. Dut. *Karsaye, kerseye, karseye*. Fr. *Craisée, carize*; Sp. *Carisea*; either *coarse*, and *say*, (a stuff,) or from the island of *Jersey*, (*Cersey*,) formerly, perhaps, famous for this kind of cloth, (Skinner.)

Moreouer also of late, the customers of the smal or petty custome & of the subsidie doe demand of them custome for *kersey* clothes equal vnto the custome of those clothes, that be of ful assise.—*Hackluyt. Voyages*, vol. i. p. 172.

Then were they shooes of ease, now of
An inch-broad, corked hye:
Black *kersie* stockings, worsted now,
Yea silke of youthful'st dye.

Others you'll see when all the town's afloat,
Wrap't in th' embraces of a *kersey* coat.—*Gay. Trivia*, b. i.

KE'STRELL. Also written *Kastrel* and *castrel*. Fr. *Quercelle, cercerelle*, perhaps, says Skinner, from *circulus*, because it expands its wings in the form of a fan; or from the shape of its tail. This species of hawk is also called *stannel* or *windhover*.

Ne thought of honour euer did assay
His baser brest, but in his *kestrell* kind
A pleasing vein of glory, vaine did find.
Spenser. Faerie Queene, b. ii. c. 3.

Phœus was yet at sea, and as his *ketch*
Tack'd to and fro, the scanty wind to snatch,
He spied a frigate. *Chalkhill. Thealma & Clearchus.*

While the wind lasted we thought ourselves but a degree from prisoners; neither had we yet great hopes of escaping; for our *ketch*, even when light, was but a dull sailer, worse being deep loaden.
Dampier. Voyages, vol. ii. pt. ii. c. 1. an. 1675.

KE'TTLE. } A. S. *Cetl, cetil*; Dut. *Ketel*;

KEY. A. S. *Cæg, cage, clavis*. A *key* (or *quay*) for ships: Dut. *Kaeye*; Ger. *Kay*, Fr. *Quay*. Tooke considers *key* and *quay* to be the same word, differently written and applied, from the A. S. *Cæg-ian*, to shut up, to confine.

The first, that by which doors, &c. are confined and fastened.

Key-stone,—see the quotation from B. Jonson.

The second, (also written *key*, as in the quotation from Holland's *Livy*,) that by which water is confined and shut out.

But as the *key* which locks or shuts will also unlock or open, *key* is applied (met.) to—

That which opens, discloses or discovers, makes known, makes clear, or explains.

B. Jonson. To Sir Edward Sackville

Such is the present state of the world in the judgment of any observing eye, that if the bishop has no other defensatives but excommunication, no other power but that of the *keys*, he may, for any notable effect that he is like to do upon the factious and contumacious, surrender up his pastoral staff, shut up the church, and put the *keys* under the door

Briefly, there is as much difference between the clear representations of the understanding then, and the obscure discoveries that it makes now, as there is between the prospect of a casement and of a *key hole* —*Id. Ib.*

Blair, vol. ii. Lect. 31.

KIBE. } Skinner derives from the Ger.
KI'BED. } *Kirben*, (the *r* being dropped euphoniæ gratiâ,) to carve or cut. A. S. *Ceorf-an*. It is more probably the same word as *chap* or *gap*, an opening.
KI'BY.

A chap or opening (in the continuity of the skin.)

A slyper holde the tayle is of an ele
And he hateth often that hath a *kyby* hele.

KICK, v. } Skinner says,—from the Ger.
KICK, n. } *Kauchen*, calcare, deculcare, inculcare; and the Ger. from the
KI'CKER. } Lat. *Calcare*. To *kick* (see *ante*) and to *kick* are probably the same word, the one applied to the throwing or heaving of the stomach, the other to that of the foot.

To throw out, (sc. the foot;) to strike, to hit, with the foot; (met.) to throw off, or back with the spirit of a *kicking* horse.

And he seide, I am Jhesu of Nazareth whom thou pursuest, it is hard to thee to *kike* aghens the prycke

Hip. Nay, that's without all question.
Sh. O ho, he would not want *kickers* enow then.
Beaum. & Fletch. The Nice Valour, Act i.

The farmer, who comes with his rent in this cash,
For taking these counters, and being so rash,
Will be *kick'd* out of doors, both himself and his trash.
Swift. A New Song. On Wood's Halfpence.

In the first, he has represented absolute power in the person of a tall man with a hat and feather, who gives his first minister, who stands just before him, an huge *kick*: the minister gives the *kick* to the next before; and so to the end of the stage. In this moral and practical jest, you are made to understand that there is in an absolute government no gratification, but giving the *kick* you receive from one above you to one below you.—*Tatler*, No. 11.

The Turk crosted over the way, and with perfect good will gave him two or three lusty *kicks* on the seat of honour. Our traveller, since he could no otherwise acknowledge this kind of favour received it with the best grace in the world—he made one of his most ceremonious bows, and begged the *Kicking* Mussulman "to accept his perfect assurances of high consideration."—*Burke. On a Regicide Peace*, Let. 3.

KICKSHAWS. } From the Fr. *Quelques-*
KI'CKSHOSE. } *choses*, for so, adds Skinner, we call various dainties, messes, and sauces, in preparing which the French cooks bear the palm from all others.

(Met.) Any trifling trumpery thing.

Look to your roast and bak'd meats handsomely, and what new *kickshaws* and delicate made things—
Beaum. & Fletch. The Elder Brother, Act iii. sc. 1.

Is a man therefore bound in the morning to poach'd eggs and vinegar, or at noon to brawn or beef, or at night to mesh-meat, and French *kickshaws*?

But the old Briton ne'er in earnest dines
Without substantial haunches and surloins.

Fenton. Prologue to Southern's Spartan Dame.

KID. } Dut. *Caghe, zeghe, tsheghe*; Sw.
KI'DLING. } *Kid*. The A. S. word is *Tic-cen, tiegen*, and Somner gives Eng. *Tegge*. Ihre thinks *kid* has the same origin as the Lat. *Hædus*. Skinner suggests Ger. *Kind*, infans, (eliso, n.) *Y kid* being the infant of the goat—

The young of the goat.

Lo so many yeeris I serue thee: and I neuere brak thi comaundement, and thou neuere gaue to me a *kide*: that I with my frendis schulde haue etun.—*Wiclif. Luke*, c. 15.

And all the way their merry pipes they sound,
That all the woods with double eccho ring,
And with their horned feet doe weare the ground,
Leaping like wanton *kids* in pleasant Spring.
Spenser. Faerie Queene, b. i. c. 6.

Climb'd mountaines, where the wanton *kidling* dallyes,
Then with soft steps enseal'd the meek'ned valleys,

The monsters of the deep now take their place.
Dryden. Ovid. Metam. b. i.

Now the pine-tree's waving top
Gently greets the morning gale.
Kidlings, now, begin to crop
Daisies, in the dewy dale.—*Cunningham. Day. A Past.*

KID. } Skinner says,—That *kid*, in Lin-
KI'DEL. } colnshire, is the usual name for a bundle of small wood: and *kidel*, Low Lat. *Kidellus*, is *Machina piscatoria*—to intercept salmon and other fish in rivers (Du Cange.) *Kidel* is a common word in old statutes respecting havens and rivers. The root is probably the verb, To *kit* or *cut*.—*Kit*, a vessel, may be from the same source.

KI'DNAP, *v.*
KI'DNAPPER.
KI'DNAPPING, *n.* } Dut. *Kinder-rauber*, to rob or steal children, to *nap* or *nab* (qv.) children or others. Blackstone explains the usage of the word.

These people lye in wait for our children, and may be considered as a kind of *kidnappers* within the law.—*Spectator.*

The other remaining offence, that of *kidnapping*, being the forcible abduction or stealing away of a man, woman, or child, from their own country, and sending them into another, was capital by the Jewish law.
Blackstone. Commentaries, b. iv. c. 15.

And also the statute 11 and 12. W. iii. c. 7. though principally intended against pirates, has a clause that extends to prevent the leaving of such persons abroad, as were thus *kidnapped* or spirited away.—*Id. Ib.*

KI'DNEY. Skinner thinks may be from A. S. *Cynne*, *genus*, and, in a secondary sense, *genitalia*, and *nigh*, (A. S. *Neah*,) being so called from their nearness to those parts, or from *cennan*, *gignere*, quia (sc.) renes multum *generationi* conferre vulgò credebantur. Serenius, from *quid*, *venter*, and *nigh*, quod ventri est proximum.

Johnson, in his note upon the passage quoted from Shakespeare, says,—"*Kidney* in this phrase now signifies *kind* or *qualities*, but Falstaff means,—A man whose *kidneys* are as fat as mine."

In Beaumont and Fletcher, it is applied to—the inwards; most deeply.

In the *Tatler*, (met.) an *inward*, (qv.) or intimate; consequentially, (perhaps,) favourite servant or attendant.

& the two *kydneys* wyth the fatte that lyeth vpon the loynes: and the kall that is on the lyuer they shall take awaye wyth the *kydneyes*.—*Bible*, 1551. *Leuiticus*, c. 3.

And then, to be stopt in, like a strong distillation, with stinking cloathes, that fretted in their own grease; think of that, a man of my *kidney*; think of that, that am as subject to heate as butter.

As for barley, he would have cast it into the ground between the æquinox in autumne and the winter sunne-steed; but vetches, *kidney-beanes*, and lentils, at the setting or going down of the star Bootes.
Holland. Plinie, b. xviii. c. 24.

In those that are subject to the stone, the petrescent matter, when it is bred in the *kidneys*, is reddish or yellowish: but when in the bladder, white or of a light grey.
Boyle. Works, vol. v. p. 95.

There are in later times other decrees, made by popes of another *kidney*, or in other junctures of affairs, which forbid princes to meddle in the election of Bishops.
Barrow. Pope's Supremacy.

It is our custom upon the first coming of the news, to order a youth, who officiates as the *kidney* of the coffee-house, to get into the paint, and read every paper with a loud and distinct voice.—*Tatler*, No. 268.

Many kinds of European garden stuff are produced, particularly cabbages, peas, beans, *kidney-beans*, turnips, and white radishes, but all much inferior to our own.
Cook. First Voyage, b. i. c. 2.

KI'LDERKIN. Dut. *Kindeken*, *kinneken*; the eighth part of a hogshead, filiolus vasis majoris, (Skinner,) because it bears the same proportion to a whole cask, as a child (Dut. *Kind*) bears to the grown man, (Junius.)

Take a *kilderkin*, sweet and well seasoned, of four gallons of beer, of 8. s. strength, new as it cometh from the tunning; make in the *kilderkin* a great bung-hole of purpose.

But sure thou'rt but a *kilderkin* of wit.
Dryden. Mac Flecknoe.

KILL, *v.*
KI'LLER.
KI'LLING, *n.*
KI'LLINGLY. } A. S. *Cwell-an*, (to quell,) subigere, domare; in Dutch *Keelen* is to throttle, to strangle. To subdue, to beat down, to destroy; to take away, or deprive of life; to deaden, to put to death, to slay.

Chapman writes *kill-man*, and Dryden, *man killer*.

And whanne the tilieris sighen him: thei thoughten withinne hemsilf and seiden, this is the eir, sle we him that the eritage be oure. And thei castiden him out of the vyneyard and *killeden* him.—*Wiclif. Luke*, c. 20.

KILL, or
KILN. } A. S. *Cylene*, a *kill* or *kilne*; *cylenise*, made like a *kill*, furnace, or oven. *Fyrencylle*, a fire-*kiln*. In Suio-Goth. *Quilla*, Westro-Goth. *Yklla*, is to kindle. Minshew derives from the Lat. *Calx*, lime; Sp. *Calera*; It. *Fornace di calcina*; Lat. *Fornax calcaria*; Ger. and Dut. *Kalck-ofen*. But the process to which *malt* (see the second quotation from Fuller) is subjected, seems to warrant the conjecture that this is the same word as the preceding, viz. to *kill* or *quell*, (sc.) the vegetation or germination of the *malt*, i. e. of the wetted or moistened grain: wetted or moistened until it vegetates or germinates. The noun *kill*, or *kilne*, is applied to—

A place for burning, (lime,) drying by heat, (malt,) &c.

How much of philosophy concurred to the first *kill* of malt! and before it was turned on the floor, how often it was tossed in the brain of the first inventer thereof!

Nourish'd in flattery, and estrang'd from truth

So *ge-næf*, *ge-næfd*, *næfig*, *næfga*, are in the A. S. *Mendicus*, *egens*. In the same manner *nequam* is held by the Latin etymologists to mean *ne-quicquam*, i. e. one who hath nothing, neither goods nor good qualities. For *nequam*, servum, non malum, sed inutilem significat. Or, according to Festus, "Qui ne tanti quidem est, quam quod habetur minimi." It may have been applied to the mere *destitution*, *nakedness*, the *helplessness* of childhood;—as *Infant*, from the *speechlessness*. Helvigius derives from Gr. Νηπιος, *infans*; (νε, *neg.* and επος, *sermo*.) See *Wachter*; also the quotation from Chaucer. *Knave* is now, and has long been, applied not to one who hath neither goods nor good qualities, but to—

One who may or may not have goods, but has many bad qualities; (e.g.) roguery, trickery, deceit, dishonesty, mischief; and, consequentially, a *knave* is—

A rogue, a trickster, a deceiving, dishonest, mischievous fellow:—also, playfully, as *rogue* also is.

KNIGHT, *n.*

KNI'GHTHOOD.
KNIGHT-LESS.
KNI'GHTLY.
KNI'GHTLINESS.

A. S. *Cnyht*, *cniht-hade*; Dut. and Ger. *Knecht*; Sw. *Kneckt*. Somner says, "*Cniht*, a boy, a little boy or child, a young youth or stripling, also a servant, a household servant, a servitor, a man-servant. Indeed, the word properly interpreted, besides that of a boy or youth, signifies no more than a servant; witnesse that use of it yet remaining in our *knights of the shire*; which although no *knights* by dignity or place, as indeed few of them either are or need to be; yet are so called: but why? under favour, in regard of that service which is required and performed of them in parliament for their several counties, whose servant for the time they are. We now, casting off the old signification of the word, ordinarily understand by it *eques auratus*, or as we vulgarly term it, *miles*. But in that sense I never find it used by the English-Saxons: after whose supplanting by the Normans, it succeeded in the place of their *theg-en*, or *thane*." In A. S. we find *cniht-cild*, a boy, which discountenances the idea of Somner, that boy was the original meaning of the word. In Matt. x. 24, 25, *learning-cniht*, (a learning knight,) is, a disciple, *discipulus*. And Spelman asserts the more common usage of the word to be *minister*. Verstegan also observes, "This title of right worshipfull dignity was heretofore by our ancestors written *cniht*, and both in the high and low Germany by the name of *knight*, (which a little they vary in the orthography,) is understood a *servant*: and I finde that *learning-cniht* was in our ancient language a disciple, and in the Netherlands a *lear-kneght* is the same that an *apprentice* is in French, that is to say, a *learner*. It may seeme strange (he adds) how our name of *knight*, being with us of such esteeme of worship, should in the etymology thereof appeare no more than it doth. To resolve which difficulty I can judge no other, having no proofe or pregnant reason otherwise to enduce me, but that the name of *knight* must have begun to be a name of honour among our ancestors, in such as were admitted for their merits to be *knights to the king*, that is, to be his owne servants, or in some sort his officers or

retayners, and to ride with him," (*On Decayed Intelligence*, c. 10.) See *Wachter*. Tooke derives it from *Cnytt*, the past part. of *cnytt-an*, to knit, *nectere*, *alligare*, *attacher*, and thus signifying *un attaché*.

Lest the nobility of others should by secret sympathy suffer in his disgracefull death, the earl was first parted from the man, and his honour severed from his person, by a solemn degradation, having his *knightly* spurs hewed off from his heels; which done, he was hanged, drawn, and quartered.—*Fuller. Whatever effect the ridicule of *knight-errantry* might have had upon that monarchy, I believe that of pedantry has had a very ill one upon the commonwealth of learning
Sir W. Temple. Of Ancient and Modern Learning

Knights are called in Latin *equites aurati*: *aurati* from the gilt spurs they wore, and *equites*, because they always served on horseback, for it is observable, that almost all nations call their *Knights* by some appellation derived from an horse.—*Blackstone. Commentaries*, b. i. c. 12.

We may plainly discover the footsteps of a similar custom in what Tacitus relates of the Germans, who, in order to qualify their young men to bear arms, presented them in a full assembly with a shield and lance; which ceremony, as was formerly hinted, is supposed to have been the original of the feudal *knighthood*.—*Id. Ib.* b. ii. c. 5.

This was the very first origin of civil, or rather military government amongst the ancient people of Europe: and it arose from the connexion that necessarily was created between the person who gave the arms, or *knighted* the young man, and him that received them; which implied, that they were to be occupied in his service who originally gave them.

Daniel. A Panegyric to the King's Majesty.

§ 2. *Knowledge* then seems to me to be nothing but the perception of the connexion and agreement, or disagreement and repugnancy of any of our ideas. In this alone it consists. Where this perception is, there is *knowledge*, and where it is not, there, though we may fancy, guess, or believe, yet we always come short of *knowledge*. For when we *know* that white is not black, what do we else but perceive that these two ideas do not agree?

Locke. Hum. Underst. b. iv. c. 1. s. 2.

And as to the being or not being of particular essences, as that God might, if he pleased, have willed that there should be no such thing as a triangle or circle, and therefore nothing demonstrable or *knowable* of either of them, which is likewise asserted by Cartesius, and those that make the essences of things dependent upon an arbitrary will in God; this is all one as if one should say, that God would have willed, if he had pleased, that neither his own power nor *knowledge* should be infinite.—*Cudworth. Morality*, b. i. c. 3.

And yet the great *knower* of hearts ascribes men's resolution to sin to such reasonings as these.

South, vol. iv. Ser. 4.

I make a distinction between these two, taking *knowledge* to be properly meant of things that are generally agreed to be true by consent of those that first found them out, or have been since instructed in them; but learning is the *knowledge* of the different and contested opinions of men in former ages, and about which they have perhaps never agreed in any; and this makes so much of one, and so little of the other, in the world.

Sir W. Temple. Of Ancient and Modern Learning.

But Clark and Baxter went deeper. They drew their conclusion, not on the presumption that they *knew* all the *knowable* qualities of matter, and that between these and thought there was no perceivable connexion; but from this clear and solid truth, that from the little we do *know* of body, we see a contradiction in supposing intelligence to be a quality of matter.—*Warburton. Bolingbroke's Philosophy.*

Though a man may be unconscious of his power when he does not exert it, he must have both the conception and the belief of it, when he *knowingly* and willingly exerts it with intention to produce some effect.

As to *knowledge*, I do not think that it can, with propriety, be contrasted with judgment, nor do I apprehend that it is at all agreeable, either to common use or to philosophical accuracy, to speak of *knowledge* as a faculty.

Skinner derives from *knock*, the projecting joints of the hand with which we *knock*. It seems to countenance Tooke's etymology that the word is commonly applied to the *knee*-joint of a calf.
